USE OF FORM 0-73

~~CONFIDENTIAL~~

1. Only incoming teletype messages which require transmission relay may be prepared for transmission using form 0-73. Use of form 0-73 is restricted to incoming teletype messages received within the last 3 days which require transmission relay; all other teletype messages must be prepared using form 0-93.
2. Additions such as notes and administrative data for a specific addressee are not allowed. If a note or administrative data is required for a particular addressee a separate 0-73 form must be prepared.
3. The message will be transmitted just as it appears. The person approving the message is solely responsible for assuring all necessary editing changes have been made.

PREPARATION OF FORM WHICH CONSISTS OF A PREPRINTED YELLOW.

1. Complete appropriate boxes: date, classification & precedence.
2. List addresses immediately following the "TO", or place a check mark in the appropriate box.
3. Type or PRINT the subject in the space provided.
4. Print or type originator's name, room number and telephone extension.
5. Indicate approval for transmission by initialing the "Approved By" box.

COMMUNICATIONS SECTION

PREPARATION OF MESSAGE TO BE TRANSMITTED

1. Xerox 1 copy of incoming teletype message. A notation shall be made on the original incoming teletype "1 copy made for relay to SACS _____, (OR LEGATS) _____, (OR GOVERNMENT AGENCIES) _____."
2. Minor editing changes shall be made on the xerox as follows: using a lead pencil ONLY draw single line through the first and last lines of the heading and connect these lines from top right to bottom left forming a "Z," figure. (DO NOT OBLITERATE THE HEADING.) Use horizontal lines to delete sentences or words. Printed changes of a word or two to the text of the message may be made; however, changes to the existing text involving more than a word or two necessitate the originator to initiate a new message using form 0-93.
3. Administrative data or notes may be typed immediately following the text and will be transmitted to all addressees.
4. When using the 0-73 form to disseminate information to field offices, Legal Attaches and other Government agencies simultaneously, the text, notes and administrative data must be identical for all addressees.

On 6/22/83, representatives of the FBI, Department of Justice and U.S. Department of State testified before the U.S. House of Representatives Subcommittee on Asian and Pacific Affairs and the Subcommittee on Human Rights and International Organizations concerning complaints received by the FBI of harassment and intimidation by foreign intelligence services in the United States. Congressional interest in these matters resulted in the passage of the Solarz Amendment to the Arms Export Control Act in 1981. This amendment denies credits, guarantees, and export licenses to any country determined by the President of the United States to be engaged in a consistent pattern of acts of intimidation or harassment directed against individuals in the United States.

OO: FBIHQ

Classified by *SP5/ur/ice*
Declassify on: OADR

This communication is classified "~~Secret~~" in its entirety.

Recent information from Los Angeles has indicated an increased activity by members of the Republic of Korea (ROK) Agency for National Security Planning (NSP), formerly known as the KCIA. Suspected and known activities have included interference in FBI matters directed against the North Korean threat in the United States (U.S.)

It is also believed by FBIHQ that the NSP is actively collecting data in the U.S. concerning ROK activist KIM Dae Jung. KIM, who is strongly opposed to the current ROK Government of CHUN Doo Whan, has been residing in the U.S. but will, in all probability return to Seoul, ROK in the near future. Supposedly, KIM will be arrested upon his return to the ROK in an effort to keep his political activities to a minimum.

In view of recent and current situations such as the Aquino assassination in the Philippines and [redacted] matter involving [redacted] it is believed that any negative action taken against KIM in the ROK may possibly result in congressional hearings. The Bureau will be expected to be cognizant of any threatening, harassing, or intimidating activity by the NSP.

Receiving offices should carefully review Bureau airtel dated 7/28/83, captioned "Taiwan, Philippines, Republic of Korea (ROK), Socialist Republic of Vietnam (SRV); FCI-Taiwan, Philippines, ROK, SRV" and analyze the ROKNSP situation in their jurisdiction, contact logical and appropriate sources, and submit details in a form suitable for dissemination. Positive information relative to [REDACTED]

[REDACTED] KIM Dae Jung, somewhat of a "cause celebre" as an anti-ROK President CHUN Doo Whan activist has been in the U.S. ostensibly for medical treatment. He is an outspoken dissident of the ROK Government's alleged lack of democracy and is supposedly a thorn in the ROK Government. According to recent Intelligence Community reporting, KIM may be seized and placed under house arrest if and when he returns to the ROK. He has vowed to return to Seoul in the near future.

Offices are referred to Bureau airtel dated 7/28/83, which sets forth requirements for Bureau investigation of harassment and intimidation against U.S. persons.

On [redacted] 1985, [redacted] T-1, a source of known reliability

[redacted] was contacted. [redacted] T-1 advised that the activities of the Republic of Korea (ROK) Agency for National Security Planning (NSP) were likely to be very different in the Washington, D.C. area than in other U.S. cities with large Korean populations. [redacted] T-1 stated that this difference is due in large part to the presence of the ROK Embassy in Washington, D.C. and the attendant concerns of the ROK Embassy with maintaining a proper image with the Congress and the media. Due to these concerns [redacted] T-1 felt that any NSP operatives either under diplomatic cover or associated with the ROK Embassy would be hesitant in involving themselves in any activity which might be viewed in a negative fashion. (U) [] T-1 stated that it is common knowledge among local Korean Americans that the NSP, still referred to be many Korean Americans as the Korea Central Intelligence Agency (KCIA), attempted to influence Korean Americans through the combined tactics of intimidation and infiltration. Intimidation is utilized against anti-ROK, pro-Democratic People's Republic Korea (DPRK) individuals and organizations who are perceived by the NSP of having visibility (particularly access to the media) and/or any degree of support within the community. NSP intimidation takes the form of one or more of the following tactics: verbal threats against individuals, implied threats of retaliation against individuals' relatives who are still residing in the ROK, publication of allegations of wrongdoing (usually financial or sexual misconduct), and physical assaults against individuals and businesses. According to [] T-1, actual assaults were rare and were usually unnecessary particularly if the individual being targeted by the NSP had only been in the U.S. a short period of time. This is due to the fact that it takes some time for a newly arrived Korean immigrant to realize that the NSP in the U.S. must operate under far greater restraints than are present in the ROK. [] T-1 reiterated that for political reasons, NSP intimidation of dissident Korean Americans is negligible in the Washington, D.C. area compared to San Francisco or Los Angeles. [] T-1 added that the NSP was likely to be more active in metropolitan areas in the U.S. where the ROK was not officially present in that NSP activities in such cities would not be so readily associated with a diplomatic establishment of the ROK. (S)

(U) [] T-1 advised that the NSP utilized the tactic of infiltration in order to solidify and enlarge the ROK's base of support among Korean Americans who are either already pro-ROK or who are at least neutral. In order to accomplish this tactic, according to [] T-1, agents of the ROK attempt to control local organizations and newspapers in the Korean American community, through financial contributions and membership. [] T-1 cited the INTERNATIONAL ANTI-COMMUNIST ASSOCIATION in Alexandria, Virginia, and the SOUTH KOREA ANTI-COMMUNIST ASSOCIATION in Laurel, Maryland as two such organization which are being supported by the NSP. (U) [] T-2 advised that the ROK was making efforts within the ROK and the U.S. to discredit ROK opposition leader KIM DAE JUNG. Most of this effort centered upon fabricating background regarding Kim in order to make it appear that Kim supported, and was being supported by the DPRK. attack on Kim by the NSP in the U.S., as it had many years ago. This was due to the ROK's fear of a backlash among the American public and U.S. policy makers against continuing economic and military support of the ROK should such an attack be linked to the NSP. [] T-2 advised that he was aware of Korean American gang-related activity in New York City and Los Angeles and that many Korean Americans believed that this activity was being directed by the NSP. (U) (S) b7D

[] T-2 further advised that he was of the opinion that the majority of this gang activity was simply criminal in nature. [] T-2 added that it was possible that the NSP was exploiting its "omnipotent" reputation among Korean Americans for political reasons by implying that it had control of this gang activity. (U) (S)

(U) Source advised that it was probably the largest, in total attendance to date, as it included for the first time numerous product exhibits. Source was of the opinion that the South Koreans were very pleased with the results of the conference and considered it very much a success. However, source further advised that it must have been very expensive because everything was first class. ~~(S)~~

(C) Source stated that this conference was unique in one way because it was attended by a delegation from the People's Republic of China (PRC). Source stated that it is common for the PRC to attend these conferences, but what is uncommon is that they would attend a conference in South Korea, because there are no real existing diplomatic relations between the two countries. Source stated that there have been some sport related exchanges between the two countries, but that this was the first technological delegation from the PRC to visit South Korea. Source [REDACTED]

Source advised that the South Koreans have the capability and are undoubtedly desirous of selling nuclear energy related products to the PRC. However, in source's opinion, the fact that the PRC attended this conference presented an opportunity for the South Koreans not to be wasted for lack of hospitality. Source is of the opinion that this is the reason the PRC delegation was treated with special interest. ~~(C)~~

(U)

Source advised that the PRC delegation appeared impressed with the South Korean facilities. Source stated that the South Korean pressure vessels are especially good, probably better than those built in the United States (U.S.). However, source advised that the technology involved in the South Korean facilities mainly originated in the U.S. and has been exported. Source stated that four of the nuclear power plants in South Korea are actually products of Westinghouse. Source advised that because the U.S. has been the front runner in nuclear technology much of the equipment in the U.S. is older. Source advised that the equipment recently exported is more modern than the equipment used in the older facilities in the U.S. ~~(C)~~

(U)

Source is of the opinion that the PRC considers U.S. nuclear technology the best, but current restrictions on sales eliminate U.S. companies from the competition. However, source is also of the opinion that the PRC will await the results of a pending agreement which is soon to be signed. Source advised that if this agreement is signed and passed by Congress, it will get one more country into the bidding which could lower the cost. Source advised that nuclear energy related sales to the PRC could eventually be upwards of 20 billion dollars. ~~(C)~~

(U)

Source advised that the 6th Pacific Basin Nuclear Conference is scheduled for September, 1987, in Beijing, PRC. ~~(C)~~

(S) A reliable source who is familiar with anti-Republic of Korea (ROK) political activities advised the ANSP has been much less harsh in its dealing with political opponents of President CHUN Doo Hwan (CDH) due to the ineffectiveness of the harsh measures. Reportedly, the ANSP has penetrated the organizations of CDH's opponents and those of the pro-North Koreans. There are indications of increasing activities of the ANSP including numerous visits of the senior ANSP and ROK officials to the United States. (S)
